

TOSCANO® MASTER AGED

WHAT IS TOSCANO® MASTER AGED

TOSCANO® Master Aged is a TOSCANO cigar with extra maturation and a unique production managed by a specialized «affinatore» (refiner).

TOSCANO® Master Aged cigars were born from the idea of the Master Blender. Beginning from their 5th day of life, TOSCANO® Master Aged cigars are aged in special maturation cellars where the refiner measures and sets the degree of humidity and temperature. The maturation is completed after a minimum of 360 days.

360

DAYS OF MATURATION

The tobacco used for Master Aged cigars has a longer drying process than the standar Toscano Cigar.

THE AGING PROCESS

The tobacco used for TOSCANO® Master Aged has a longer drying process than the standard Toscano Cigar.

Starting from the 5th day of maturation, the product is checked every day for specific humidity and temperature standards, that need to be maintained constantly. The whole maturation process last for at least 360 days in total, with the use of specific maturation cells.

This particular production process creates the rounded, balanced and unique taste of the Toscano Master Aged.

MASTER AGED

MASTER AGED vs. TOSCANO

Four things make TOSCANO® Master Aged a cigar unlike any other TOSCANO:

- 1** The long and meticulous aging process, never shorter than 360 days, where cigars are stored in specific «maturation cells».
- 2** The constant care of the «affinatore», a highly experienced cigar blender fulfilling the task of ensuring the top quality of the cigars with periodic checks of the maturation process.
- 3** The bigger ring gauge that gives a full body but rounded taste.
- 4** 100% Kentucky Fire Cured Tobacco with longer drying process.

EXPERIENCE AND TIME,
CREATE A UNIQUE MASTERPIECE!
